SKILLS

Languages

C, C++, JavaScript, Ruby, Python.

Web Development

React, HTML5, CSS3, Redux, Tailwind, Bootstrap, SASS, Ruby on Rails(RoR), Express, Node.

Databases

MongoDB, PostgreSQL, and MySQL.

Tools & Methods

Jest, RTL, Vite, Git, GitHub, Docker, Cypress, REST API, Gitflow, Linters, Webpack, Netlify, Vercel, Chrome Dev Tools, Rswag

PROJECTS

iNotebook (MERN Full-Stack dev)

- **Implemented JWT tokens** to secure user data, manage authorization, and refresh tokens to maintain active sessions.
- **Automated testing** with unit, integration, and end-to-end (E2E) tests to ensure robust application performance and reliability.
- **Utilized** Docker to create platform-agnostic images, facilitating consistent deployment across various environments.
- **Stack:** MERN, Redux, Tailwind, Jest, Cypress.
- **Repo:** [API](#) | [UI](#)

Car-BnB (React & RoR Full-Stack dev)

- **Collaborated** with 3 developers to build Car-BnB.
- **Integrated** Ruby on Rails API with React front-end for seamless cross-language communication.
- **Implemented** automated tests for both front-end and API to ensure quality and reliability.
- **Stack:** PostgreSQL, React, Redux, RoR, Capybara, Jest.
- **GitHub Repos:** [API](#) | [UI](#)

SnapScan (RoR Full-Stack Dev)

- **Implemented** user authentication and authorization using Devise.
- **Managed** and persisted user data, maintaining integrity and handling sub-categorical relations.
- **Conducted** unit and integration testing to ensure application reliability.
- **Stack:** Materialize, Rspec, Capybara, Ruby on Rails, and PostgreSQL.
- **GitHub Repo:** [API](#) | [UI](#)

EDUCATION

Remote Full-Stack Web Development Program

Microverse

 09/2022 - 12/2024

- Spent 1300+ hours mastering algorithms, Data structures, and full-stack development while developing projects with HTML, CSS, Ruby on Rails, MERN, and Redux

BS(CS), Software Engineering

Fast nukes

 08/2018 - 06/2022

EXPERIENCE

Full Stack Dev (Trainee)

Microverse

 01/2023 - 09/2023

 Remote

- **Developed** over 30 projects utilizing HTML, CSS, JavaScript, and RoR, demonstrating proficiency in full-stack development.
- **Conducted code reviews** for colleagues, providing constructive feedback and suggesting improvements to enhance code quality and maintainability.
- **Mentored new developers**, offering technical support and guidance through code reviews to help them adapt to best practices and improve their coding skills.

Coding/Lab Instructor

FAST NUCES

 02/2023 - 07/2024

 Karachi, Pakistan

- **Mentored** upcoming programmers with short lectures to 6 sections of 40+ students every week.
- **Guided** students in logic-building, problem-solving, and algorithm analysis.
- **Reviewed** assignments weekly, providing feedback to improve code quality and problem-solving skills.
